Vogue 700 Inset

WOODBURNING FIRES

EXCLUSIVE TO YOUR LOCAL SHOWROOM

Fireside allure meets industrial-chic

With landscape proportions, a cast iron door, and signature subtle contours echoed across the build of its exterior, the Vogue 700 Inset is more than just a fire – it's a designer centrepiece.

We are proud to have been recognised as an award-winning manufacturer, for our high-quality products and innovative technology. Find out more at stovax.com/awards

The Vogue 700 Inset offers an expansive view of vivid flames through its wide viewing window, and burns with high efficiency. A single air control makes for easy operation, with a discreet door handle that has been ergonomically engineered for both function and aesthetics.

Inside, a cast iron grate creates a sense of continuation from the fire's exterior while offering a robust base for burning, whilst also having the option of being DEFRA Exempt to burn wood in smoke control areas without the need for an additional kit. Featuring a state-of-the-art combustion system, the Vogue 700 Inset is also fully Ecodesign compliant, reducing emissions to a minimum – a result of Stovax's decades of quality craftsmanship and expert fire design.
